

Blade Runner

NEUTROG®
Biological Fertilisers

Neutrog Blade Runner is an ideal food for all lawns. It is particularly suitable for new lawns and summer applications on established lawns where the slow release properties help prevent thatch build up. Blade Runner promotes healthy, lush and sustained growth of your lawn, unlike chemical lawn fertilisers which produce upward growth over a shorter period. Essential plant nutrients are released slowly into the soil, stimulating microbiological activity, making further nutrients available to your grass.

Blade Runner also helps the development of healthy, well structured soils. It promotes microbial and earthworm activity which bind soil particles together to improve soil structure and tilth. Better soil structure allows roots to grow unrestricted in a nutrient rich environment.

Blade Runner is manufactured from manure - one of nature's oldest and most natural fertilisers. This product is composted and steam treated to ensure the product is pathogen and weed free.

Analysis (dry weight basis)		%w/w
Nitrogen (N)	as Organic*	3.0
Phosphorus (P)	as Citrate Soluble	2.0
Potassium (K)	as Organic*	1.7
Calcium (Ca)	as Organic*	7.0
Magnesium (Mg)	as Organic*	0.65
Sulphur (S)	as Organic*	2.0
Iron (Fe)	as Organic*	0.2
Zinc (Zn)	as Organic*	0.035
Manganese (Mn)	as Organic*	0.05
Molybdenum (Mo)	s Organic*	0.0002
Boron (B)	as Organic*	0.0003
Copper (Cu)	as Organic*	0.0006

*This product is classified organic in accordance with the Agricultural Standards Regulation 1997

Neutrog's Blade Runner is widely used throughout Australia by professional turf managers in a variety of applications: tennis courts, sporting ovals, golf courses, bowling greens. Your home garden can now benefit from Neutrog's unique range of fertilisers.
