

Bounce Back

NEUTROG®
Biological Fertilisers

Analysis (dry weight basis)		%W/W
Nitrogen (N)	as Organic	3.0
Phosphorus (P)	as Citrate Soluble	2.0
Potassium (K)	as Organic	1.7
Calcium (Ca)	as Organic	7.0
Magnesium (Mg)	as Organic	0.65
Sulphur (S)	as Organic	2
Iron (Fe)	as Organic	0.2
Zinc (Zn)	as Organic	0.035
Manganese (Mn)	as Organic	0.05
Molybdenum (Mo)	as Organic	0.0002
Boron (B)	as Organic	0.0003
Copper (Cu)	as Organic	0.0006
Water holding capacity		50 - 55%
Humic Acid		2 - 4%
Organic matter		55 - 60%

*This product is classified organic in accordance with the Agricultural Standards Regulation 1997

Bounce Back is registered with Australian Certified Organic (ACO). Neutrog have a number of products registered with ACO and its methods and processes for manufacturing are audited to ensure compliance with the strict standards and guidelines set down by the certifying body. Registration ensures compliance with national production standards, including low levels of heavy metals and other residues, and allows for trace back of all raw materials to their origins. All of Neutrog's products are subjected to the same rigorous quality control procedures.

Bounce Back is a unique blend of organic materials specially formulated for all your fertilising needs. A highly concentrated natural product, Bounce Back also promotes faster, healthier, sustained growth for all plants. Bounce Back encourages the development of earthworm and microbial activity leading to healthy, well-structured soils.

Bounce Back is composted and steam treated and is then pelletised for easier and cleaner handling.

These processes stabilise the nutrients, maximise nutrient availability and ensure the product is free of any parasites, pathogens and weed seeds. Most importantly, the resultant product retains the microbiology necessary to provide a 'living' fertiliser.

Neutrog Bounce Back is widely used by professional horticulturalists throughout Australia in the successful production of commercial crops of vegetables, flowers, fruit and plants.
