

HUMAPHOS

Triple → 6 Turf

6-6-6

Humate Based Natural Mineral Fertiliser

Locally made for local conditions

Product information

- Feeds up to 10 weeks
- Analysis specifically formulated for new and established turf
- Highly dissolvable 2 mm prill for ease of application
- Activated carbon to optimise chelation of minerals and elements
- Reduces thatch and dissolves black layer
- Ideal for turf maintenance or renovation

Application Guide

Apply 5-8 kg per 100 m²

Step 1 Apply fertiliser to dry surface preferably in the afternoon

Step 2 Irrigate to saturation after application

Step 3 Allow to dry thoroughly or when friable to touch before mowing with the catcher off

Step 4 Follow with irrigation to dissolve any particle residue

Minimum Analysis

Total Nitrogen (N) as natural organic compound	6.16%	w/w
Total Phosphorus (P) as citrate soluble	6.00%	w/w
Total Potassium (K) as sulphate	6.90%	w/w
Total Sulphur as natural organic compound	9.14%	w/w
Total Calcium (Ca)	14.86%	w/w
Total Magnesium (Mg)	0.19%	w/w
Total Zinc (Zn) as sulphate	0.25%	w/w
Total Manganese (Mn) as sulphate	0.25%	w/w
Total Boron (B)	0.06%	w/w
Total Carbon	15.00%	w/w
Minimum Humic content	10.20%	w/w

**Pack sizes:
25 kg &
1 Tonne Bulk Bag**
