Label rev. 05.2016

pH: 8.5

Each Litre Contains:

0.319 kg Potassium

Net Contents:

2 x 10 Litre Case

Wt/Litre: 1.33 kg

Net Wt: 13.3 kg 10 L Jug

Net Wt: 26.6 kg 2 x 10 L Case

Available Container Sizes:

2 x 10 L Case

113.56 L Drum

208.20 L Drum

1040.99 L Tote

Solution distribution to help the world grow.

MADE IN U.S.A

Infiltrate-K (0-0-24-0)

Organic-based Potassium Acetate

Minimum Guaranteed Analysis w/v %

Potassium (K) as acetate 24%

Green-T® Infiltrate-K 0-0-24-0 is an organic-based potassium acetate that rapidly enters the foliar tissue. Due to its low burn potential, rapid leaf absorption, high potassium plant uptake and slow drying characteristics, applications of **Green-T® Infiltrate-K 0-0-24-0** result in safer foliar applications and less stress on the plant. The plant absorbs potassium from **Green-T® Infiltrate-K 0-0-24-0** in much higher proportions than all other potassium sources due to its unique composition with acetates. Acetates, a component of the TCA cycle, have complexing qualities that help stabilize other nutrients with its buffering capacity. Acetates resemble organic acids that release nutrients which may be unavailable.

Directions for Use:

Greens, Tees and Fine Turf: Apply 60- 260 ml/100² of Green-T® Infiltrate-K 0-0-24-0 with 6-8 liters of water per 100². (6-26 litres of Green-T® Infiltrate-K 0-0-24-0 with 600 – 800 litres of water per hectare) every 14 days throughout the growing season.

Fairways, Roughs, Sports Turf and Lawns:

Apply 20 – 30 litres per hectare of Green-T® Infiltrate-K 0-0-24-0 with 400 – 800 litres of water per hectare (200 – 300 ml/100² of Green-T® Infiltrate-K 0-0-24-0 with 6-8 liters of water per 100²) every 2 to 4 weeks throughout the growing season.

Application Rates For Green-T® Infiltrate-K 0-0-24-0

ML/ 100 M ²	Litre/ Hectare	Potassium- kg/100 M ²
60	6	0.019
100	10	0.032
130	13	0.041
200	20	0.064
260	26	0.083
300	30	0.096

Mixing Handling:

Clean mixing & application equipment. Fill tank ¾ full with water; begin adding one product at a time. Use a proper mixing order (W.A.L.E.S.). Check mixture compatibility using a jar test prior to application. **Caution:** Keep away from children & domestic animals. Do not apply near water, storm drains, drainage ditches. Do not apply if heavy rains are expected.

WARNING: Harmful if swallowed; Causes serious eye irritation. May cause skin irritation.

Users are encouraged to seek further advice.

Precautionary Statement: Prevention: Wear eye/face protection. Avoid contact with skin. Do not eat, drink or smoke when handling this product. Wash hands thoroughly after handling. **First Aid: If in eyes:** Rinse carefully with water for several minutes. If eye irritation persists, get medical attention. **If swallowed:** Rinse mouth; induce vomiting. Get medical attention if you feel unwell.

Storage & Disposal: Store in a well-ventilated, cool, dry place; keep container closed; do not add water or other material to the container. Store above 32° F (0°C). Do not allow to freeze. Do not contaminate water, food or feed by storage or disposal. Do not store near acids or other acidic materials. Dispose of contents/container in accordance with local authority requirements.

Warranty: The manufacturer and seller warrants that the material conforms to the product description on the label and is reasonably fit for the purpose stated, when used in accordance with the directions. Further, because of critical unforeseeable factors beyond the manufacturer's and seller's control which prevent them from eliminating all risks in connection with the use of fertilizers, the buyer and user acknowledge and assume all risks and liabilities resulting from handling, storage and use of this material. The terms of this notice may not be varied by any verbal or written statement.

This label complies with the National Code of Practice for Fertilizer Description and Labelling.
