

# X-TRA WET G

## GRANULAR WETTING AGENT

Improves water penetration and helps prevent  
Dry Patch in Turf & Lawns

### ACTIVE CONSTITUENT

15% Specialty Non Ionic Surfactants

#### GENERAL INSTRUCTIONS

XTRAwet G is a non-ionic surfactant suitable for use in most situations where water repellency inhibits or prevents the growth of turfgrass, gardens and crops. XTRAwet G is particularly beneficial in situations where dry application is required and where irrigation cannot be followed up immediately. XTRAwet G is ideally suited to applications on fairways, large playing fields, public parks and gardens. If left untreated, poor water penetration leads to weak root growth, poor nutrient uptake and low crop yields or death of sensitive plants and turf. XTRAwet G provides rapid penetration of water to highly water repellent soils. XTRAwet G is very long lasting and in some situations will continue to function for up to 12 months.

#### PROTECTION OF WILDLIFE, FISH, CRUSTACEA & THE ENVIRONMENT

Do not contaminate streams, rivers or waterways with the chemical or used container.

#### STORAGE & DISPOSAL

Store in closed, original container in a well-ventilated area, as cool as possible.

#### SAFETY DIRECTIONS

Avoid contact with skin or eyes. Avoid inhaling any dust. Wear rubber gloves, overalls and goggles or face shield.

#### FIRST AID

If poisoning occurs induce vomiting and contact a doctor or Poisons Information Centre. If skin contact occurs remove contaminated clothing and wash thoroughly. If in eyes, hold eyes open and flood with water for at least 15 minutes and see a doctor.

#### CONDITIONS OF SALE

The use of XTRAwet GRANULES is beyond the control of the manufacturer, therefore, no warranty, expressed or implied is given by K&B Adams Pty Ltd regarding its suitability, fitness or efficiency for any purpose for which it is used by the buyer, whether in accordance with the directions or not and K&B Adams Pty Ltd accepts no responsibility for any consequences whatsoever resulting from the use of this product.
